### Report

It was a game of 4 quarters! 1st was surprisingly good with a couple of well worked tries. 2nd was more like what you would expect after a long lay-off, an improved Wendens sniffed a chance. 3rd quarter was below par, even for first game of the new season. Wendens took the lead, using their youngster's fitness. 4th quarter we raised our level a notch, pressured their pack and kept the ball well. But it wasn't until the penultimate play of the game that we regained the lead and took a narrow win.

There were signs that our gameplan will work, there were also signs that without improving our fitness/desire we could come unstuck to sides we should beat!

On the whole I wasn't too unhappy. Wendens were a good test first up and could feel hard done by to lose so narrowly so late on!
