Report

Well, the luxury of a possible sub really enhanced the pre-match excitement for Renegades. It had been a while. We welcomed Bedford Athletic to Cottenham for the first time, and unlike many pitches in the area, it was perfectly playable if you were able to imagine the lines which were barely visible due to the failure of Vivify, (the Manchester-based (dis) organisation of utter uselessness whose only talent is taking money). Not bitter ... honest!

Let's not dwell on the 11 tries that Bedford ran past Renegades. They were a very good team who were clinical in their execution. At least Slugz's efforts disrupted a few of their conversions. Many other good shifts put in, but one worth mentioning was the effort put in by Fraser who made some very good carries and was fantastic in support, first man in when his mates went down.

Shep for a great shift (as always).

Dan Phillips for extending a kick over the top for the opposition.
